Ribbon Color & Gender: Color Ribbon Gender

Microchip #: 000000000000000

This agreement is between Seller, Julianna Engelbert, and (Buyer)

_____. NYS law stipulates that you should take your puppy to the vet within 14 business days of the purchase. At Point Breeze Doodles, we highly recommend that you take the puppy within the first 3 days, if possible. Although we have already taken your puppy to our veterinarian before sending him/her home, your vet should see and evaluate the puppy in the condition that it was in when you first received it. Some illnesses can develop due to the stress of moving to a new home, and it is important that your vet has a good "baseline" to begin with from the very start. While NYS law does supersede our desire for you to take your puppy in sooner, it would be in the puppy's best interest for you to do so.

It is necessary to protect your puppy from contagious diseases until an entire series of 4 vaccines have been given. Your puppy should not come in contact with other puppies and should not be taken to places where other puppies have been until they are fully protected by the entire series. At eight weeks of age, your puppy has had only one vaccine, as is the proper vaccine protocol for his/her age, and is not fully protected against deadly contagious diseases such as Parvo virus and Distemper (in addition to others). Precaution also needs to be taken at your veterinarian's office, as people take sick animals there, which could be a potential risk to your new puppy.

At Point Breeze Doodles, we do our best to rid your puppy of worms. However, it is possible for the puppy to have a negative stool sample at our vet's and then become infected due to the stress of moving to a new home. We highly recommend that you ask your vet to do a routine stool sample check at each visit. We do not guarantee against parasites, viral, or bacterial diseases unless covered under NYS Law.

Point Breeze Doodles does not guarantee against accidental death, environmental-based problems, non-genetic issues, parasites of any kind, theft, or loss of dog due to anything other than what is stated in this contract or within the NYS "Sale of Dogs and Cats" law.

This warranty does not include allergy or shedding issues, temperament or size issues, seizures, viral or bacterial illnesses, infections, improper bites, ear infections, hernias, hypoglycemia, Giardia, Coccidiosis, or parasites of any kind. It also does not include any illness due to the ingestion of foreign objects, food, chemicals, physical injury, or issues of unknown origin or that may have an environmental link. Upon execution of this contract, all veterinary care and associated costs are the sole and exclusive responsibility of the Buyer except as written in NYS Law.

Point Breeze Doodles Health Guarantee and Agreement

PO BOX 26414, Rochester, NY 14626

(585) 362-9684

All purchase agreements, guarantees, and spay/neuter contracts must be signed and returned to Point Breeze Doodles within 14 days of taking possession of the puppy, or this 24-month extended health guarantee is null and void.

This puppy is being sold with a Spay/Neuter Agreement and must be spayed or neutered by 7 months of age. All certificates of spay/neuter must be provided to Point Breeze Doodles by the time the puppy is 8 months of age, or this 24-month extended health guarantee is void, and legal action may be taken at the Buyer's expense. (Any appropriate registration paperwork will be forwarded after Point Breeze Doodles receives written proof of alteration from your vet.) No breeding rights have been given – breeding of this puppy/dog is not allowed. Seller may remove the dog from the owner if it has been bred without breeding rights, or financial compensation in the amount of 5x the original purchase price of the puppy will be paid to the seller by the Buyer.

This guarantee is non-transferable. If the puppy is sold or given away, this extended health guarantee becomes void. Also, if the puppy has been physically injured or abused in any manner, this guarantee is void.

Point Breeze Doodles guarantees your Puppy against hip dysplasia*, elbow dysplasia, eye conditions that are genetic in origin, and genetic heart disorders that are serious enough to require treatment, until 24 months of age.

*If the puppy is diagnosed by OFA (or other accredited certifier) as being severely dysplastic on or before 24 months of age, the Buyer must submit a copy of the OFA report to Point Breeze Doodles. A veterinarian cannot make the diagnosis; it can only be made by OFA, PennHIP, or other accredited hip specialist certifiers, and the puppy must be sedated for the radiograph to be taken.

Should a Veterinarian determine that the puppy has a hereditary defect as listed above, a statement setting forth such defect from the diagnosing veterinarian, on his/her letterhead, must be sent within 24 hours of such determination. Point Breeze Doodles reserves the right to have the puppy examined by a veterinarian of our choice, at our expense; all other veterinary and transportation expenses are the Buyer's obligation.

If it is verified that the puppy has a hereditary defect, Point Breeze Doodles will reimburse the Buyer for veterinary expenses related to the defect up to the purchase price of the puppy, with the Buyer retaining ownership of the puppy. Delivery and shipping fees will not be refunded.

The puppy must be kept current on all vaccinations, including a rabies vaccination after 4 months of age. The puppy should be kept on a flea and tick preventative as well as a monthly heartworm preventative. Copies of these records are required to be submitted to Point Breeze Doodles if the Buyer is requesting reimbursement for any reason. This extended health guarantee is void if the puppy has not been given necessary vaccinations or regular heartworm preventatives, or is housed in an outdoor kennel. Dogs must be housed indoors.

If the puppy should die from a suspected congenital defect within 24 months of age, a necropsy (animal autopsy) must be performed, at the Buyer's expense, by a state-licensed Veterinarian. If the necropsy determines that a congenital defect is the cause of death, Point Breeze Doodles will refund the expense of the necropsy, as well as provide another puppy of equal value, or refund the purchase price of the puppy, to the Buyer.

The Undersigned Buyer has read the above conditions and agrees to abide by them.
